RECEIVED

SUPPLEMENTAL REISSUE DECLARATION FOR REISSUE PATENT
APPLICATION (37 C.F.R. 1.175) AND POWER OF ATTORNEY

Sir:

As a below named inventor, I hereby declare and say that:

1. I believe that I am one of the original, first and joint inventors of the subject matter which is claimed in the subject reissue application and for which a reissue patent is sought on the invention entitled FLAT PANEL DISPLAY INCLUDING ELECTRON EMITTING DEVICE, the specification of which was filed on August 26, 1999 as U.S. Reissue Application No. 09/384,326.

2. I have reviewed and understand the contents of the above-identified reissue application, including the claims.

3. I acknowledge the duty to disclose to the U.S. Patent and Trademark Office all information known to be material to patentability as defined in 37 C.F.R. § 1.56.

4. I hereby claim foreign priority benefits under 35 U.S.C. § 119(a)-(d) or §365(b) of any foreign application(s) for patent or inventor's certificate, or §365(a) of any PCT international application, which designates at least one country other than the United States, listed below and have also identified below any foreign application for patent or inventor's certificate, or PCT international application having a filing date before that of the application on which priority is claimed:

<u>Country</u>	<u>Application No.</u>	<u>Filing Date</u>	<u>Priority Claimed</u>
Japan	62-174837	July 15, 1987	Yes
Japan	62-250448	October 2, 1987	Yes
Japan	62-255063	October 9, 1987	Yes
Japan	62-255068	October 9, 1987	Yes
Japan	63-102485	April 27, 1988	Yes
Japan	63-102486	April 27, 1988	Yes
Japan	63-102487	April 27, 1988	Yes
Japan	63-102488	April 27, 1988	Yes
Japan	63-154516	June 21, 1988	Yes

5. I believe that the original, above-identified U.S. Patent is partly inoperative by reason of my having claimed less than I had the right to claim in the subject patent.

Claims 1-42 and 56-67 are pending in the present reissue application, of which Claims 1-42 are identical to Claims 1-42 of our U.S. Patent 5,661,362, as corrected in the Certificate of Correction issued on March 31, 1998.

Our U.S. Patent 5,661,362 correctly claims some aspects of our invention relating to a display device, but does not claim other aspects to which we are entitled. Therefore, our U.S. Patent 5,661,362 does not give our invention adequate protection. Claims 56-67 were added in this reissue application, and recite at least some features which either do not appear in, or are broader in scope than, any of the claims of our U.S. Patent 5,661,362.

In particular, one of the errors in our U.S. Patent 5,661,362 is that the display apparatus recited in Claim 56 includes a fluorescent layer, and this feature is broader than at least one feature of original Claims 1-42 (of our U.S. Patent 5,661,362, as corrected in the Certificate of Correction issued on March 31, 1998), which recited a display device comprising, inter alia, fluorescent members located at an inner side/face of a face plate above an electron-emitting device.

Accordingly, I believe that the failure of our U.S. Patent 5,661,362 to provide adequate protection for the aspects of our invention discussed above and set forth

in Claim 56 renders the patent partly inoperative for the reason that we claimed less than we had the right to claim in the patent.

6. I hereby declare and say that every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intention on my part.

7. I hereby appoint the practitioners associated with the firm and Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith and direct that all correspondence be addressed to the address associated with that Customer Number:

FITZPATRICK, CELLA, HARPER & SCINTO

Customer Number: 05514.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
